What to Expect *when you renovate*

JOHN BUCHAN HOMES

INTEGRITY IN EVERY LAYER — SINCE 1961

425.827.2266 ◆ BUCHAN.COM

1 INTRODUCTORY MEETING

We start with a conversation about your home and how you live in it, then walk through our process to see whether scope and budget fit.

- How you live & what's driving the project
- A candid budget conversation from day one
- Overview of our process

2 YOUR PROGRAM & INSPIRATION

You write the program room by room, describing what works today and how you want to live, paired with images that capture your style.

- Room-by-room wish list, written by you
- Curated images: kitchens, baths & key rooms
- Neighborhood fit & resale kept in view

3 HOME EVALUATION

Before design begins, we study the house to confirm the scope fits the home and budget, with a site visit for major renovations.

- Structure, systems & conditions reviewed
- Scope tested against home & budget
- A clear answer early on what's realistic

4 DESIGN TEAM

We match the design team to the scope: our in-house designers or a trusted partner.

- Compare design fit, fees & rapport
- We join meetings and collaborate
- Contract for full or limited preconstruction services

5 DESIGN & PRELIMINARY ESTIMATE

Schematic work is priced early and tested against your budget, so cost is part of every decision, not a surprise at the end.

- Schematic design priced to your target
- Cost impact reviewed at every meeting
- Value engineering to align design with budget

6 INTERIOR DESIGN & SELECTIONS

Interior design begins while plans take shape. Every finish, from cabinetry to paint, is selected before demolition starts.

- Selections front-loaded, not rushed
- New work tied thoughtfully into what stays
- One cohesive design, not a collection of ideas

7 COST ESTIMATE

We negotiate unit-cost pricing with trusted trade partners and deliver an estimate you can read and understand.

- Competitive pricing from trusted trade partners
- Clear, detailed estimate
- Conservatively estimated, contingency included

8 CONTRACT & START

Construction contract is signed when plans, selections, and estimate are final. Then we start, with a schedule that holds and an estimate you can rely on.

- Final plans, selections & estimate in hand
- Construction contract signed
- Permits, schedule & living arrangements planned

9 CONSTRUCTION

A dedicated Superintendent owns your schedule. Our Homeowner Portal replaces a hundred text messages.

- Homeowner Portal as your single source of truth
- Progress billing on a set schedule
- A transparent process: no surprises, change orders via the portal

10 COMPLETION & BEYOND

Walkthroughs build the punch list before you move back in, and an orientation covers your home's systems.

- Final walkthrough & thorough construction cleaning
- Extensive warranty coverage
- One-year follow-up as the new work settles
